Customizable screen layouts

Create a completely custom and unique layout of all your content using our simple drag, drop and resizable "block" framework. Learn more in our blog ➡

(<https://blog.dakboard.com/live-content-layout-editor-for-dakboard/>)

Multiple Screens

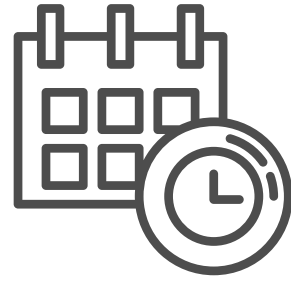

Create multiple screens with different configurations. One for home, one for the office, one for the grandparents ... the possibilities are endless!

Content scheduling

Set a schedule for each block in a custom screen or multiple screens themselves, and your content will be shown or hidden accordingly.
